

Aroma SE 200/300

Description

Aroma SE 200 and SE 300 are both equipped with electronic pre-brewing and electronic adjustable servings.

Created to satisfy every professional requirement, the Aroma line is an embodiment of the high-quality technology Saeco is famous for.

Main features

- Autonomously pre-heated brewing group with adjustable temperature maintains the perfect temperature for any sort of coffee beans independent of how long the machine has not been used
- Double pre-brewing system: mechanical only, or mechanical and electronic
- Top boiler capacity - one of the highest available
- Main switch with 3 positions - full power, reduced power and energy saving mode for electric heating
- Teflon-coated volumetric meter and cold nozzle with T.E.A. treatment to prevent lime scale

Accessories

- Automatic cappuccinatore
- Digital display
- Water softener
